

YOUR EVENT ON THE TOP LOCATION

Renting options of St. Michael's Fortress and Barone Fortress

The Fortresses of Šibenik, are a monument of cultural heritage and an ideal place for a different and more creative approach to business tourism, as well as a unique location for your private event.

Depending on the needs of the client, it is possible to rent the complete locations of the Fortresses or just individual units. There is also the option for closing the facilities for other visitors and / or closing units of the objects for other visitors.

The use of the entire Fortress area or the use of a specific unit on the Fortresses includes the organizational support of the Fortress of Culture Šibenik.

St. John's Fortress opens its doors in 2019.

St. Michael's Fortress

technical specifications

Parking, access, loading and unloading

- Prior announcement is required to park or access St. Michael's Fortress plateau (where the loading entrance is located). The parking area is for 10 cars max.
- The large parking lot of the former factory TEF (5 min drive) is recommended for parking of large productions or group visits to St. Michael's Fortress.
- A backup parking lot (within 50m of the Fortress' entrance) with a distribution cabinet, is available for technical production needs, event video recordings or live broadcasts. The parking surface is 25 x 5 m.
- Due to the terrain configuration and limitations of the access road, it is necessary to check in advance whether the dimensions of the vehicle conflict with the access restrictions. Examples of vehicle dimensions that can reach St. Michael's Fortress plateau:
 - * Truck: Mercedes, cargo dimensions 6,5 m, 2.6 m height, 220 horsepower
 - * Van: VW Crafter: cargo dimensions 4,25 m, height 1.85 m, 140 horsepower
- Dimensions of the loading entrance leading to the elevator: width 3 m, height 2,7m, length of the entrance: 16,5 m.
- Elevator dimensions: 1,7 m, length 1,35 m, height 2,15 m. The width of the elevator entrance door is 1 m and the height is 2 m. Load capacity: 1000 kg. The elevator can reach levels one (Information room level) and two (Main stage level).

The main stage and auditorium

- The total capacity of the main stage auditorium is 1077 seats, arranged by the amphitheatre model.
- The auditorium is divided into three main zones A, B and C. There is also the M zone, which is smaller than the other zones and is located on the left side of the A zone.
- The height difference between the first and the last row of the A, B and C zones is 6.4 m.
- Seats per zone: A zone - 253, B zone - 487, C zone - 253 and M zone - 84.
- It is possible to add extra chairs to the auditorium and arrange them according to the organizers needs.
- The total area of the stone part of the stage is about 250 m². The maximum usability of the stone area for setting a rectangular stage is 15 x 10 m. The stage entrance is from its rear part (direct entrance from the wardrobes area).
- The audience enters through two entrances, one is on the left and the other one is the right side of the stage.
- There is a control room (for lighting and sound system control) at the top of the auditorium. It is 6,4 m wide, 2 m long and 2,1 m high.

Power connectors

- There are three separate power connectors for sound system, lighting and broadcast vehicles. They are entirely isolated from other electricity consumers in the Fortress.
- Sound system and lighting: 2 x 125 A CEE. The distribution cabinet with the connectors is located underneath the seats in the middle (B zone).
- Broadcast vehicle connector: 1 x 63 A CEE and 2 x 32 A CEE. The cabinet is located in the backup parking lot outside the Fortress.

We provide catering service.

Barone Fortress technical specifications

Parking, access, loading and unloading

- The parking lot of Barone Fortress is located immediately behind the walls of the Fortress.
- Due to the land configuration and limitations of the access road, it is necessary to check in advance whether the dimensions of the vehicle are conflict with the access restrictions. Examples of vehicle dimensions that can reach the parking lot of Barone Fortress:
 - * Truck: Mercedes, cargo dimensions 6,5 m, 2.6 m height, 220 horsepower
 - * Van: VW Crafter: cargo dimensions 4,25 m, height 1.85 m, 140 horsepower
 - * Mini bus OTTOCAR
 - * MAN 14 tons of total truck load
- The dimensions of the Fortress entrance: width 3 m, height 3,10 m

The stage and auditorium

- The stage surface is 95 m² without the auditorium and 140 m² including the auditorium
- The auditorium is fixed and consists of 5 seating levels with a total capacity of 60 seats.
- Up to 150 chairs can be added to the auditorium and they can be arranged according to the organizers needs. If the chairs are added, the fixed auditorium is not used because it is faced opposite.
- The audience can enter the auditorium area from 2 directions, from the cafe terrace or from the upper level of the promenade.
- Barone Fortress does not have a wardrobe for the performers, but the bar wardrobe can be used. It is possible to set up prefabricated partitions.

Power connector

- There is one power connector for sound system and lighting power supplies. The distribution cabinet is entirely isolated from other electricity consumers of the Fortress.

Distribution cabinet specifications:

4 x 16 A CEE 1x230 V

2 x 16 A CEE 3x230 V
